## Career talks for students and parents 升學講座

Career teachers disseminated updated information concerning the entrance requirements of JUPAS-participating institutions, programme selection and non-JUPAS study options to senior secondary students and their parents. Besides, the Careers & Further Studies Committee and Academic Committee co-organized a talk to provide information of senior secondary curriculum to S3 students and their parents.

Subject selection talk for S3 students and their parents

### **Alumni Sharing 校友分享**

The alumni from different tertiary institutes were invited to share their experiences on study skills, stress management, selection of JUPAS programmes as well as their university lives. The atmosphere of the sharing sessions was good and our students responded actively in the sharing sessions. The useful tips given by the alumni helped our students to sail through the upcoming journey.

Experience sharing by alumni who were admitted to Faculty of Architecture of the University of Hong Kong, Department of Japanese Studies of the Chinese University of Hong Kong and Faculty of Science of the Chinese University of Hong Kong

Experience sharing by alumni who were admitted to Faculty of Law of the University of Hong Kong

Experience sharing by an alumna who was admitted to School of Business of the Hong Kong Baptist University

## University Admission Talks 大學入學講座

Representatives from various universities were invited to host talks. The talks allowed students to have direct interaction with university professors and student ambassadors. Students could clarify their study aspirations and make informed decisions on JUPAS programme choices.

Admission Talk by Hong Kong Baptist University

Professor Kai-lung Hui  
Associate Dean, School of Business  
and Management

Professor Pak Wo Leung  
Associate Dean, School of Science

Admission Talk by Hong Kong University of Science and Technology

Admission Talk by Mr. THAM Koy Siong  
(Assistant Dean, College of Business, City University of Hong Kong)

Admission Talk by Taipei Economic and Cultural Office

## Career Workshops 升學就業工作坊

During this school year, various career workshops were organized to enhance students' self-understanding and acquire necessary skills and knowledge for making study and career choices.

In junior forms, workshops were organized to guide students to make choices of senior secondary elective subjects according to their interests, abilities and career aspirations. Basic Interest Marker was conducted to facilitate the effectiveness of S3 subject consultation sessions.

In senior forms, interview skills workshop and mock interview workshops were organized to prepare students for university admission interviews. Career assessment workshops were conducted for S5 students to enhance the understanding of their personality traits and career orientation.

Holland codes(RIASEC) can help match interests to careers. Which Holland code do you belong to?

Career Interest Inventory (CII) workshop for S5 students

Holland's Hexagon

Students discussing the concept of career and life planning

## Learning Experiences about Work 與工作有關的學習

Careers & Further Studies Committee worked closely with Other Learning Experiences (OLE) Committee to organize various kinds of activities to help students explore the career world and set their career goals. Guest speakers from different employment fields were invited to host talks to provide students with a wide range of career information and career choices. Workplace visits and work experience programmes were also arranged to enable students to understand the requirements of employers and develop correct work values.

A talk about flight attendant

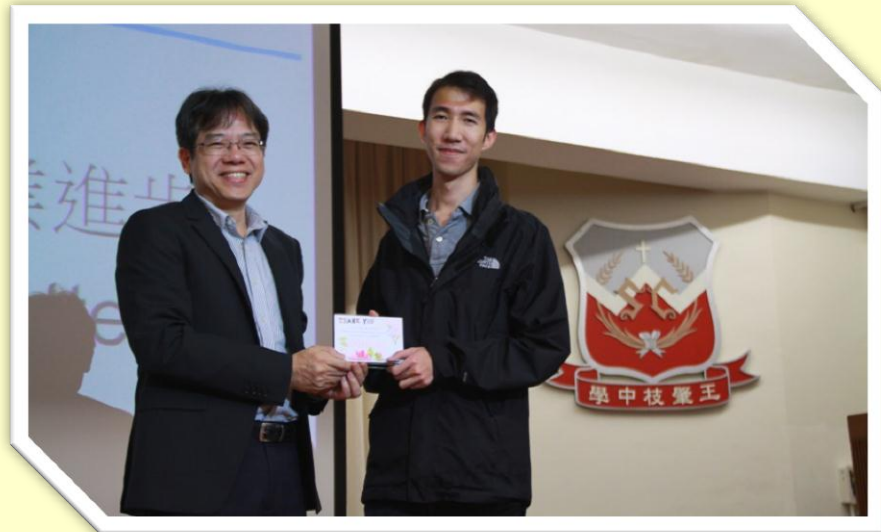

A talk by our alumnus Renatus Wu, graphic designer

A talk by our alumnus  
Leung Kam Chuen  
introducing actuary

Workplace visit –  
Method Acting Workshop

Workplace visit –  
Manulife

Workplace visit - Club One Wedding Planner

Canon Photomathon 2014 Hong Kong - Student Ambassador Programme

The Canon Photomathon 2014 event let me work at the check point outside the Hung Hum Stadium and Hong Kong International and Convention Centre. Through this event, I worked with other groupmates and served totally 1600 participants. I noticed that it was not very hard to chat with strangers. If I am brave enough and keep smiling I become confident.

## Life Building Scheme (LBS) 生命培育計劃

Careers & Further Studies Committee and OLE Committee worked closely to integrate the school-based Life Building Scheme (LBS) with career guidance programmes to achieve “Individual Student Planning”. With a better self-understanding gained through career guidance programmes, class teachers guided students to set personal goals, develop action plans and make reflection.

Life Building Scheme Prefects

***“We do not learn from experience ... we learn from reflecting on experience.”***

*Through joining the English Drama Workshop, I have learnt respecting every actor around the world is important. Acting is not as easy as ABCs. Actors, actresses and directors work hard to perform a drama or a film, but people do nothing in the production. They only enjoy or criticize. Therefore, that is a 'MUST' to respect people who work for the entertainment of the people.*

- CHAN YUEN CHING KRISTY (2A)

*I have learnt a lot. Not only how to play basketball well, but also the experience on my life and change my attitude. When you have a basketball competition, you begin to realize that what is relevant is not just the end result of the game. The most important thing is the process while you are playing. My coach said "Failure is the mother of success" and "Effort is the key to success", I realize failure isn't terrorizing; you should stand up and not give up when you lost the game.*

- WONG LAI ON (2E)
